# WOULD YOU LIKE TO RE-HOME YOUR FLYING FRIENDS?

Bats are one of nature's most widely misunderstood inhabitants, however let's highlight the importance of these flying mammals and what benefits you may have by coexisting with them. Bats play a wonderful part in pest control, pollinating plants and dispersing of seeds. A recent study "bats eat enough pests to save more than \$1 billion per year in crop damage" no imagine what impact they will have around your home if they are accommodated.

WildFlight Middle East strives to ensure the

humane removal of wild animals that invades your home and property. Our technicians have the experience, expertise, and proper equipment to conduct a thorough inspection of your property and determine the correct method of removal according to government legislation. Once the animal and the entry point have been identified, our trained technicians will discuss with you our humane, non-lethal removal methods, and what would work best for your situation.

Contact WildFlight Middle East to assist with re-homing your flying friends from your ceiling or any unwanted place.
