KEEP YOUR BUILDINGS BIRD FREE WITHOUT HARMING THEM

Introducing Bird Free Bird Repellent

Bird Free Bird Repellent keeps all birds off all structures without harming them. It does so by altering their behavior, not by acting as a physical barrier.

Bird Free Bird Repellent is quick and easy to install. It can be used indoors or outdoors and causes no damage to buildings or structures. Bird Free Bird Repellent has been installed at thousands of commercial sites worldwide. These include airports, government offices, sports stadiums, railway stations, hospitals, factories, pylons, bridges, historic buildings,

and many other locations where birds had previously been a nuisance or a health hazard.

Bird Free Bird Repellent's deterrent effect on birds is long-lasting. Left undisturbed, it will remain completely effective for at least three years after proper installation, even in the most exposed environment.
